

# Connecting to Qualfon Guest Wi-Fi

## Introduction

Process details on how to connect to the Qualfon Guest Wi-Fi.

## Details

1. A guest account must be set up by either our Service Desk or the Front Desk.
2. Each company has different connection methods for its systems. If you have an always-on VPN, open the network settings from the main PC log-in page by selecting the globe icon.

3. Select '**Qualfon\_Guest**' and then connect to the VPN. After the desktop loads, you will be automatically redirected to the **Qualfon Guest login page**.

**Welcome to Qualfon\_Guest**

**QUALFON**

Wireless Guest Access

You will need to be on the list of authorized users for this network in order to access the Internet.

If you already have an account on this network, sign in here:

email

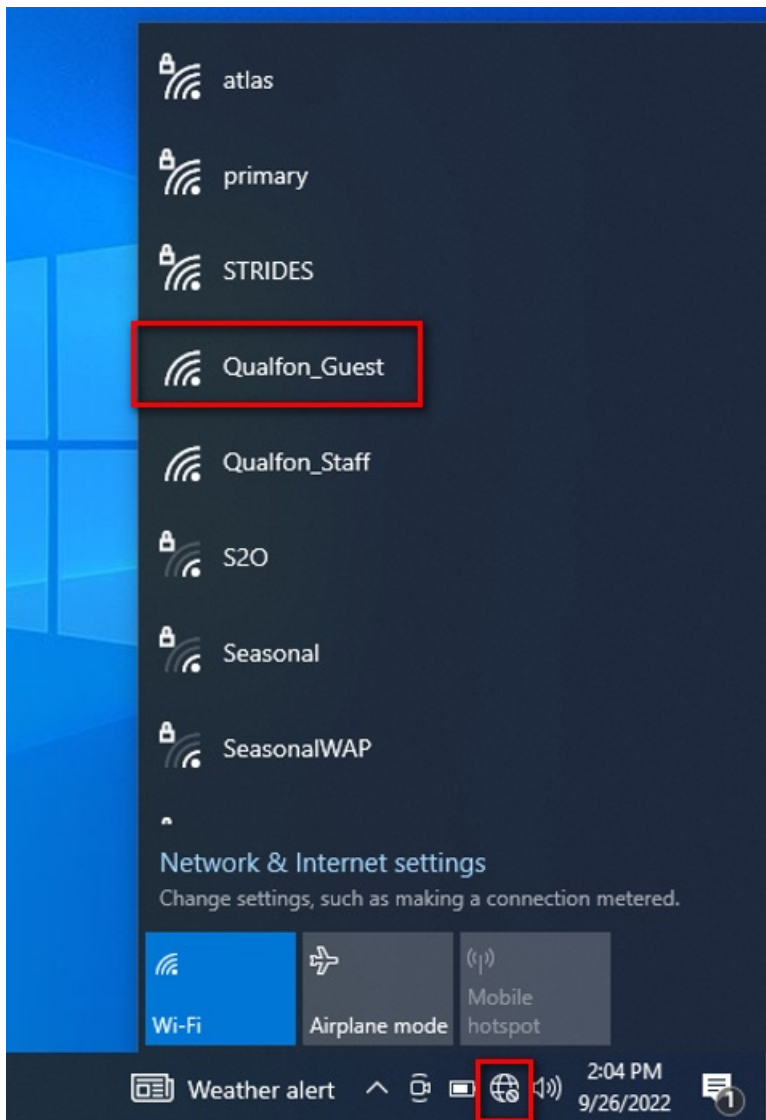

password

**sign in**

[I forgot my password](#)

**CISCO** Powered by Cisco Meraki

4. If you can sign directly into your PC then in the lower right corner, open the globe icon and select the Wi-Fi network to connect to. You will be redirected shortly to the same sign-in page as shown above.
