Logging into Qualfon VPN

Introduction

How to log into the Qualfon VPN through either Cisco AnyConnect or Cisco Umbrella and then authenticating via MS Authenticator.

Details

 Double-click on the Cisco AnyConnect or Cisco Umbrella icon on your desktop, or in the lower right corner near the time/date, this can also be found in your start menu under the list of all programs. (Click the start button/Windows key and type 'Cisco'.)

🕲 Cisco Secu	e Client			×
	AnyConnect VPN: Ready to connect. 1: vpn.qualfon.com	~	Connect	
	Umbrella: Umbrella is active.

5. MS Authenticator will now display a code on your computer screen as well as notify you on your mobile device:

6. Enter that code into the MS Authenticator app on your mobile device and click**YES**:

7. The **Approve sign-in?** box will appear, follow the instructions to enter whatever item to unlock your screen lock (i.e. PIN #, face ID, pattern, fingerprint, etc.) to finish that sign-in.

- 8. Click **accept** on the Qualfon agreement. You are now connected to the Qualfon network.
