Downloading Software from Company Portal

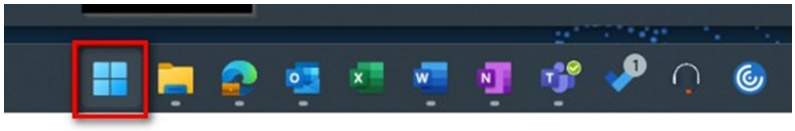

Introduction

Process shows how to install company-approved software from the Company Portal app.

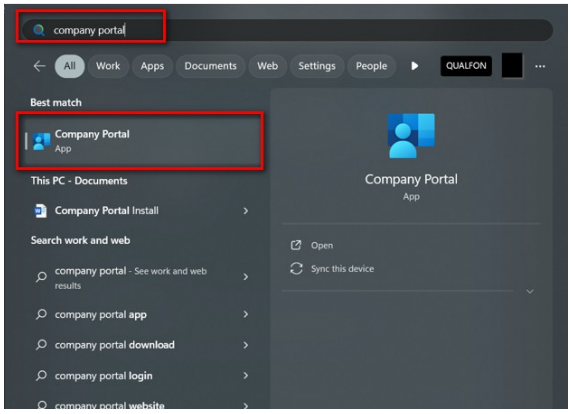

NOTE: Company Portal is installed on all Intune-joined Qualfon devices, including laptops and remote machines.

Details

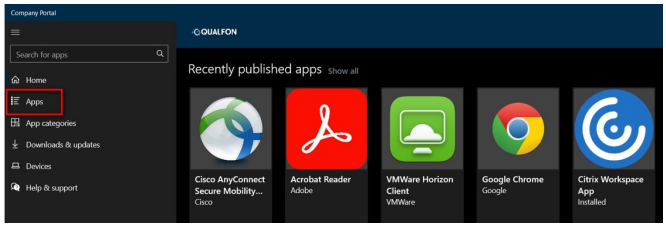

1. Click the **Start Menu** on the bottom **taskbar** and search for **Company Portal**.

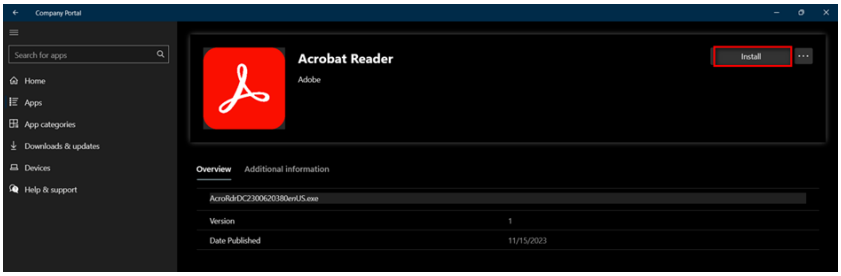

2. Alternatively in the Search box type ***Company Portal*** and open the App.

3. When Company Portal opens it will automatically sign you in with your Qualfon account.
4. To download apps, click ***Apps*** on the left side then click into an app.

5. Click **Install** on the right.
    A. Note: These apps do not need administrator access to download.
