# Intune PC Setup

#### Introduction

Process details walk through signing into the Qualfon PC from the Out of the Box Experience (OOBE). For more information on Intune's role at Qualfon, see <u>here</u>.

#### Details

1. When you power on your PC, the **Start screen will vary**. It may start by asking you to sign in with your work email shown in Step 4 below or ask you to select your region, confirm the keyboard layout, and set up Wi-Fi for Laptops.

Is this the right country or Uganda Ukraine United Arab Emirates United Kingdom United Kingdom United States United States	region? Let's start with region. Is this right? U.S. Woor Waying Islands U.S. Woor March Stales Usande Usande Usande Stales Usande Stales
	Is this the right keyboard layout or input method? If you also use another keyboard layout, you can add that next. US Canadian Multilingual Standard English (India) Irish NZ Aotearoa Scottich Canlic

	Let's connect you to a network
	You'll need an internet connection to continue setting up your device. Once connected, you'll get the latest features and security updates.
	Ethernet0 Not connected

	Having trouble getting connected? For troubleshooting tips, use another device and visit aka.ms/networksetup
	Next

2. If asked about naming the PC, click the **Skip for now** button. This will be automatically done after you sign in.

3. Select the "Set up for work or school" option. Click on Next.

4. Enter your **Qualfon email address**, then click on **Next**.

	Let's add your Microsoft account
	One account connects your device across Microsoft apps and services, like Office, OneDrive, Edge, and the Microsoft Store.
<b>-</b> 0	Hicrosoft
× •••	Sign in Email, phone, or Skype
	No account? Create one!
_	Sign in with a security key ③ Sign-in options
	an a san an a
	Next

5. You will then be prompted to enter your **Qualfon credentials**.

6. Next, you'll need to perform the MS Authentication and enter the # listed on the screen into your device.

7. Enter that code into the MS Authenticator app on your mobile device and click**YES**:

	I CAN'T SEE TH	NO. NO. OF ADDRESS

8. The **Approve sign-in?** box will appear, follow the instructions to enter whatever item to unlock your screen lock (i.e. PIN #, face ID, pattern, fingerprint, etc.) to finish that sign-in.

9. After you sign in, it will take some time to finish setting up.

$\circ$	
Please wait while we set up your device	

10. Do **NOT** click the "**continue anyways**" button. Let the setup run until it's complete and the PC will **auto-restart**, then sign you into Windows or let you click "finish".

11. At this point, you will be mostly set up. Apps are assigned based on the group and begin to automatically install upon signing into Windows. To download any needed software such as Cisco AnyConnect VPN and MS Office (depending on license) Citrix, etc. that didn't automatically install; click on the **Start Menu** or **Windows** icon on the bottom taskbar and search for the program "**Company Portal**".

12. When you open the Company Portal, it will automatically sign in with your Qualfon account.

13. To download apps, click "**Apps**" on the left side and click on the one you need. The "**Install**" button is in the upper right-hand of the window.

**NOTE**: These apps will not need administrator access to download.
